DAVID KITSCHKA

SUMMARY

Data-driven professional with a strong background in **Data Engineering, Business Analytics, Data analysis and Team Leadership**. Experienced in delivering scalable SQL data models and ETL processes for corporate clients, as well as developing high-impact **pricing strategies** that significantly drive revenue growth. Proven track record in coordinating ERP developments, leading CRM migrations, and managing small teams. I combine technical expertise in Azure and SQL with strategic business insight to optimize operational efficiency and profitability.

WORK EXPERIENCE

Uniwise s.r.o.

5/2025 - Present

Data engineer

- **Workforce & Cost Simulation:** Developed and optimized a critical SQL data model processing 150+ complex payroll components for a major European manufacturer.
- **Database Development:** Designed and optimized full-stack database objects, including schema design, stored procedures, and complex transformation logic.
- **Deployment & CI/CD:** Managed database changes using Visual Studio (VS) projects within a CI/CD pipeline for automated releases.
- **Cloud & BI:** Implemented Microsoft Fabric environments and managed Azure resources (App Services, Storage Accounts).
- **Reporting:** Created high-value Power BI dashboards for Budgeting, Forecasting, and Financial Planning.

Žaluziee - DEMAXIA, s.r.o.

2/2023 - 2/2025

Analyst, Pricing Specialist & Team Lead

- **Core Pricing Management:** Acted as the primary Pricing Specialist; developed and managed pricing strategies for a portfolio of 70+ products, resulting in a 50% increase in company revenue.
- **Strategic Market Analysis:** Performed continuous competitive analysis, margin and profit analysis, and set strategic departmental goals.
- **Marketing & Campaign ROI:** Collaborated closely with the marketing team to analyze campaign performance relative to revenue, recommending specific products for promotion based on data
- **Product & Quality Analytics:** Monitored product return rates (claim rates) and performance metrics to optimize the product portfolio.
- **Advanced Reporting:** Built automated dashboards in Looker Studio and Google Sheets to monitor revenue, KPIs, and marketing campaign ROI.
- **Marketing Collaboration:** Analyzed sales trends to recommend high-potential products for promotion and evaluated campaign effectiveness.
- **Systems & Digitalization:** Coordinated the development of the internal ERP system and led the migration to a new CRM system, including configuration and team training
- **Leadership:** Managed a small team and set strategic goals for departmental growth and process optimization.
